ESG Rating 2026: Recognised Again and Achieving a Record Result

The coeo Group further improved its overall EcoVadis rating in 2026, achieving 73 out of 100 points and reaching the 84th percentile. This once again confirms an Advanced level of sustainability performance.

Third Consecutive Year of Improvement

With the latest result, the coeo Group has improved its EcoVadis rating for the third consecutive year, achieving the highest overall score in its rating history. This underlines the continuous development of our ESG strategy and the consistent implementation of sustainable business practices.

Significant Progress in Key ESG Areas

Particularly strong results were achieved in Business Ethics (84 points), Sustainable Procurement (77 points), Environment (75 points) and Labour & Human Rights (68 points). The assessment confirms the effectiveness of our initiatives in governance, compliance, information security, sustainability reporting and responsible supply chain management.

Leading Position Within the Industry

Despite increasingly demanding EcoVadis benchmark thresholds, the coeo Group continues to rank among the top 10% of assessed companies within its industry. Particularly strong results were achieved in Sustainable Procurement (Top 2%) and Business Ethics (Top 5%). The rating once again confirms the coeo Group's strong ESG position in the international industry comparison.
